

## FROM GIRLHOOD TO WOMANHOOD

Mothers Should Watch the Development of Their Daughters—  
Interesting Experiences of Misses Borman and Mills.

Every mother possesses information which is of vital interest to her young daughter.

Too often this is never imparted or is withheld until serious harm has resulted to the growing girl through her ignorance of nature's mysterious and wonderful laws and penalties.

Girls' oversensitiveness and modesty often puzzle their mothers and baffle physicians as they so often withhold their confidence from their mothers and conceal the symptoms which ought to be told to their physician at this critical period.

When a girl's thoughts become sluggish, with headache, dizziness or a disposition to sleep, pains in back or lower limbs, eyes dim, desire for solitude, when she is a mystery to herself and friends, her mother should come to her aid, and remember that Lydia E. Pinkham's Vegetable Compound will at this time prepare the system for the coming change, and start this trying period in a young girl's life without pain or irregularities.

Hundreds of letters from young girls and from mothers expressing their gratitude for what Lydia E. Pinkham's Vegetable Compound has accomplished for them, have been received by the Lydia E. Pinkham Medicine Co., at Lynn, Mass.

Miss Mills has written the two following letters to Mrs. Pinkham, which will be read with interest:

Dear Mrs. Pinkham:—(First Letter.)  
"I am but fifteen years of age, am depressed, have dizzy spells, chills, headache and back-

Lydia E. Pinkham's Vegetable Compound Makes Sick Women Well.

## LAUNCH OF THE NORTHLAND.

New Auxiliary Schooner for the Coastwise Trade.

The Northland, the four-masted schooner built at Cobb, Butler & Co.'s yard, Rockland, for the Northern Maine Power Packet Co., was successfully launched Oct. 18th. She was built to handle the output of the mills of the Great Northern Paper Co., at Millinocket and the new mills in course of construction on the west branch of the Penobscot river, with return cargoes of coal and general cargo, and will sail between Stockton Springs, New York and southern ports. She has a carrying capacity of 3,000 tons of coal. The Northland has a gross tonnage of 2,047.83 and a net tonnage of 1,568.57. Her dimensions are as follows: registered length, 242 feet; breadth, 44 feet; depth, 26.6 feet. She has a frame of hard wood and hickmatack, cut in northern Maine. The planking and ceiling are Georgia yellow pine. The forward house, built of North Carolina pine, provides for the steam plant, galley, forecabin and engineer's room. The after house, handsomely finished in hard woods, has accommodations for the captain and officers. Both houses are heated by steam. Her 500-horse-power gasoline engine manufactured by the Standard Motor Construction Co. of Jersey City, is guaranteed to send her along at a speed of five or six knots. There are also two smaller engines for generating electricity located in the engine room with the main engine. The purposes of the smaller engines are three-fold. They will operate two elevators which will facilitate the handling of cargoes; they will furnish the power for lighting the schooner throughout, and for the operation of a searchlight. The electric elevators and searchlight are a decided innovation for a coasting schooner. In addition to the gasoline power there is the usual steam plant for operating sails, anchors and pumps. Independent of steam or gasoline power the Northland is fully equipped as a modern sailing vessel. The schooner has five hatches, two more than the usual number in a vessel of that size. The two extra hatches will be used for handling the product of the paper mill and will have the elevator service. Each elevator has a lifting capacity of about 5500 pounds. The Northland has Oregon spars throughout. The lower masts are each 111 feet long and the topmasts are 56 feet long. The vessel will spread about 9000 yards of canvas. The vessel has two Baldt stockless anchors, each weighing 7000 pounds, a stream anchor of 900 pounds and a kedge anchor of 500 pounds. There are 200 fathoms of 2 1/2 inch chain. Wire rigging is used. The hull of the vessel is painted white above the waterline. The Northland was designed by John J. Wardwell with the usual result in the way of beauty and with every promise of speed, which is one of the objects aimed at. She will be commanded by Capt. Thomas J. Wheeler of Tennant's Harbor, an efficient Knox county mariner, who has lately commanded the five-masted schooner Prescott Palmer.

## Rockland Scallop Fishing.

The scallop fishermen, who did such a successful business off Monroe's island last season, are again at work in the same place and are finding these delicious shell fish plentiful. At present there are about a dozen boats in commission. The price of scallops ranges from \$1.25 to \$2 a gallon, and fish caught by the men off Monroe's island are shipped mostly to New York and Boston markets. They catch from \$12 to \$30 worth a day, which makes it a good profitable business. It requires, however, an outfit costing from \$800 to \$1,000 to be able to operate the business, including a power boat, drags, ropes, etc. There is always two or more men to a boat. The water is many fathoms deep where the scallops are caught, so deep that the men could not haul the drags without the aid of gasoline power, which is used.—Thomas Herald.

Cocaine which dulls the nerves never yet cured Nasal Catarrh. The heavy feeling in the forehead, the stuffed up sensation and the watery discharge from eyes and noses, along with all the other miseries attending the disease, are put to rout by Ely's Cream Balm. Snell, taste, and hearing are restored, breathing is normal. Until you try this remedy, you can form no idea of the good it will do you. Is applied directly to the nose spot. All druggists, etc. Mailed by Ely Bros., 55 Warren street, New York.

At 3 o'clock the annual sermon was preached by Miss Greenwood of Brooklyn, N. Y., World's and National Evangelist. Her topic was "The Inner Life." That evening the largest audiences of the week thronged the temple at the "Y" mass meeting. Miss Amy Swankie-Cameron of England presided, and brief addresses were made by Mrs. Seberry of the United States, Mrs. Waycott of Canada, Miss Cummings of South Africa, Miss Ada Henry of Australia, Miss McDonald of Scotland, Baroness Van Hanson of Germany, Miss Hayashi of Japan, and others. Dr. Henson spoke the closing words.

Monday and Tuesday a "school of methods" was held at which many questions were discussed—L. T. L. work; Temperance in Sunday school; Protection of Native Races; The Press, Anti-Narcotics, Household Helpers, etc., etc. A most interesting half hour was that in charge of Mrs. Reid of Scotland on Food Reform. She showed samples of flannel of bright red, or green, colored by the jelly or pickle or other "food" in which they had been immersed; also bits of flannel of a decidedly dirty color from the milk which had been strained through it. Mrs. M. M. Allen, National Superintendent of Medical Temperance, outlined three kinds of work: that among doctors who use alcohol; against the use of concealed alcohol in the patent medicines, so popular; and against the self prescription of drugs, often so injurious. A large number of physicians never prescribe alcohol, which is a depressant and not a stimulant, according to medical authority. The discussion on mercy, Mrs. Lovell, Supt., was very interesting. The claim that the birds and feathers, etc., used in millinery, are "made," she declared to be unsubstantiated by facts. It would seem that the birds could do more good by their music and destruction of insects than on a bonnet, to say nothing of the cruelty involved. There is an increasing number of women who wear no feathers of any kind, nor furs. The finest sealskins are said to be taken from the live animal. No one can deny the tortures of the animals which are trapped, and lie for hours, or days, maimed, and starving. The painfulness of the tight cheek rein; the inevitable cruelty of the slaughter houses—these and many other points were touched upon. Mrs. Lovell sets a good example. She wears no feathers or fur and eats no meat. Miss Callispe of Athens, Greece, added that she has for twenty years eaten no meat.

The "open parliament" on prohibition was introduced by Miss Agnes Slack of England, who endorsed prohibition emphatically. Mrs. L. M. Stevens questioned, why, if liquor-selling is right, there should be any restriction? If it is wrong, why allow any liberty or license? Ex-Senator Remick of New Hampshire spoke strongly in favor of prohibition, giving examples of conditions under prohibition and under the present law. (In closing his remarks he said he "wished everyone could see how splendidly Mrs. Stevens had conducted this convention.")

A gentleman from Iowa remarked that after 8 years of prohibition they had no use for one of the State penitentiaries and wished to sell it. The law was changed and at the end of another term the legislature was appropriating \$200,000 to build more penitentiaries. Mrs. Dobson of England, mother of Miss Margaret Dobson, who had sung several solos, spoke, with others, and the question boxes closed by Mrs. Wilbur F. Crafts, who brought a message from the prisons. The boy she was visiting in the prison said: "prohibition would emancipate me and thousands of others."

The institute closed Tuesday morning and the members of the national executive committee left for Hartford that afternoon, holding important ante-convention meetings daily until Friday, when the session formally opened. Many delegates and visitors remained in Boston until Thursday. Some excursions and receptions were arranged, but the reception to be given by Mrs. Stevenson, president of the Massachusetts W. C. T. U., had to be given up, since she could not receive and go to Hartford at the same time. When the foreign delegates returned to Washington President Roosevelt will give a reception to them, and they are also invited to lunch by Mr. and Mrs. Wilbur F. Crafts.

The Rebekah degree was conferred on seven candidates Wednesday evening by Golden Rod lodge. The work was done by the newly organized degree staff of this lodge. Mr. and Mrs. Fred Mathews and Mr. and Mrs. Hahn of Warren, who were present, pronounced the work first class. Mrs. Hahn is marshal of the Warren Rebekah degree staff. Urban Trask has moved onto the Taylor place on the road to South Hope. The farm is near East Union. Joseph Ames has sold his stave and shingle mill at North Appleton to Charles Plummer, who is making repairs on the dam and flume and getting the mill in good condition for the fall and winter work. Hon. and Mrs. S. J. Gushes are in New York visiting their son Ralph, who is proprietor of the Claremont hotel. Mr. and Mrs. Fred Davidson, who have been living on the "Keating place" during the summer, have moved back to their farm. George Simmons has moved into the Boston hotel. Miss Lottie Young is in Boston selecting her stock of millinery. Mrs. V. O. Keller has an auction Thursday evening and will move in the near future. Mrs. Mary Thomas of Searsmont is a guest of Mrs. David Cross for a few days.

CENTER LINCOLNVILLE. The schools in town will close this week for two weeks' vacation. Miss Abbie Richards gave a photograph entertainment at the Lamb schoolhouse last Friday evening with a good attendance. Frank Coggin arrived home Saturday from Stonington. Mrs. Alice Miller, who has been spending a few weeks in Camden, has returned home. Harry and Carrie Mathews have gone up river on a hunting trip. Mrs. James Hobbs and son Everett of Hope visited in town last week. Miss Merle Wentworth pleasantly entertained a party of young friends at her home on Friday evening. Dr. Leach has engaged rooms in A. P. Wentworth's residence and will move in the near future. Mrs. Mary Thomas of Searsmont is a guest of Mrs. David Cross for a few days.

The convention has been welcomed by the Governor, the Mayor and many others. At the banquet Wednesday evening, Ex-Governor John D. Long presided. Greetings from many societies and individuals have been received. A letter from Lady Henry Somerset was read and greetings returned to her and to others. Lord Carlisle whose wife is the new World's President, and their daughter, Lady Dorothy Howard, were among the speakers Thursday evening. The early part of the evening was filled with a demonstration by the Loyal Temperance Legion of the Willard Settlement, and it was a beautiful sight to see the children marching with waving flags. Their exercises were very bright indeed.

Saturday evening nearly a hundred speakers representing the different countries made brief speeches. One of the most interesting delegates is Miss Senasti Callispe of Athens. One was glad to see and hear Miss Ellen Stone of Bulgaria, who was captured by the brigands and endured such "dreadful things." Reports from the various departments showed gain, and strong are the incentives to greater labors. Great is the need in Japan, Greece, India, all voiced by their representatives most eloquently and urgently. E. F. M.

The convention of the World's Woman's Christian Temperance Union closed formally Saturday evening, Oct. 20th, but meetings continued through Sunday and until Tuesday morning. Sunday many pulpits were occupied by white ribbons and it was our good fortune to hear Mrs. Leeds, wife of Isaiah Leeds, the well known philanthropist. She made a touching plea for the prisoners, that they be not merely punished but helped to be better.

Reports from the various departments showed gain, and strong are the incentives to greater labors. Great is the need in Japan, Greece, India, all voiced by their representatives most eloquently and urgently. E. F. M.

## COBB'S PLURALITY 7,968.

AUGUSTA, ME., October 19. The clerks in the office of secretary of State today concluded the tabulation of the vote cast in the State election September 10 for governor, as taken from the clerk's returns. The tabulation shows that William T. Cobb of Rockland, Republican, received 68,898 votes; Cyrus W. Davis of Waterville, Democrat, 60,930; Henry Woodward of Winthrop, Prohibitionist, 1,134; Charles L. Fox of Portland, Socialist, 1,511; giving Cobb a plurality of 7,968. The vote by counties was as follows:

| Counties     | Cobb, R. | Davis, D. | Woodward, P. | Fox, S. |
|--------------|----------|-----------|--------------|---------|
| Androscoggin | 3907     | 5370      | 51           | 123     |
| Aroostook    | 4870     | 2110      | 126          | 22      |
| Cumberland   | 9838     | 10456     | 226          | 356     |
| Franklin     | 2458     | 1538      | 33           | 6       |
| Hancock      | 3927     | 3115      | 17           | 60      |
| Kennebec     | 6034     | 6102      | 98           | 97      |
| Knox         | 3009     | 3486      | 41           | 177     |
| Lincoln      | 2279     | 1944      | 26           | 32      |
| Oxford       | 4620     | 2993      | 37           | 44      |
| Penobscot    | 6835     | 6767      | 85           | 85      |
| Piscataquis  | 1958     | 1196      | 50           | 3       |
| Sagadahoc    | 1923     | 1803      | 72           | 37      |

| York         | 6882     | 4940      | 117          | 46      |
| Totals       | 68,898   | 60,930    | 1134         | 1511    |

## Kidney Disease Kills.

Thousands Never Suspect That They Have It.

It is now generally admitted that disease of the kidneys and bladder constitutes the greatest source of disease. Cure these and we remove the cause of nearly all ailments of the Liver, Blood, Stomach and Bowels. But the approach of Kidney disease is so slow and gradual that the first symptoms may not be noticed. Here are some of the most common symptoms of this dangerous disease:

Discolored or dark urine, sometimes excessive and of pale color.  
Unusual desire to urinate, especially at night.  
"Brick Dust" deposits, sometimes containing albumen and blood.  
Swelling around eyes, ankles and abdomen.  
Drowsiness and a constant tired feeling.  
Pain, hot and dry skin.  
Pain in the back, headache, cramps in the legs.  
Bowels constipated, digestion impaired.  
Rheumatic pains in the joints and muscles.

If you have any of the above symptoms your kidneys need immediate attention, and Dr. David Kennedy's Favorite Remedy should be taken at once. You know what will happen if you neglect these symptoms? Bright's Disease, most terrible, is nearly always the outcome. Dr. David Kennedy's Favorite Remedy has cured thousands of kidney disease, and we have the positive proof. It will cure you. Send for Dr. David Kennedy's Favorite Remedy, N. Y., for a free sample bottle and medical booklet. Large bottles \$1.00, at all druggists.

A LIQUID COLD CURE  
—AND—  
LAXATIVE COUGH SYRUP

THE ORIGINAL  
THE NEW IDEA

The Red Clover Blossom and the Honey Bee on Every Bottle.

"A Cold or a Cough nearly always produces constipation—the water all runs to the eyes, nose and throat instead of passing out of the system through the liver and kidneys. For the want of moisture the bowels become dry and hard." Nearly all other cough cures are constipating, especially those containing Opium. Kennedy's Laxative Honey and Tar moves the bowels, contains no Opium.

For Croup, Whooping Cough, La Grippe, Influenza, Bronchitis, and all Coughs, Colds, Lung and Bronchial affections no remedy is equal to Kennedy's Laxative Honey and Tar. Children like it.

Put up in 25c, 50c and \$1.00 bottles at the Laboratory of E. C. DeWitt & Co., Chicago, U.S.A.

## A Positive CATARRH CURE

Ely's Cream Balm is quickly absorbed. Gives Relief at Once. It cleanses, soothes, heals and protects the diseased membrane. It cures Catarrh and drives away a Cold in the Head quickly. Restores the Senses of Taste and Smell. Full size 50 cts., at Druggists or by mail; Trial Size 10 cts. by mail. Ely Brothers, 55 Warren Street, New York.

**STEAMER NOTES.** The Eastern Steamship company officials are much pleased at the fine showing made by the new steamer Governor Cobb on her trial a short time ago, off New York. The steamer made nearly 22 knots and everything about the steamer worked finely.... At a meeting of the Tenant's Harbor Steamboat company, it was voted to relinquish all claim to the steamboat wharf, with the privileges there pertaining, to the Eastern Steamship company for a term of twenty years. It is understood that the company now having control will repair the wharf, build a freight-house and waiting-room, dredge the harbor, and make all other necessary repairs, and improvements at its own expense. It is also expected that there will be a daily boat each way next season.... The steamer Dover, formerly the Westover, now under charter to the Maine Coast Transportation Co., arrived at Kidder's Point dock at 4 o'clock last Friday afternoon, and after discharging freight there docked at the Jellison pier to load potatoes for New York. The steamer Foxhall has been sold to Charles L. Dimond, manager of the Brunswick Steamship Co. These are the two steamers put on the Searsport and New York line by the local company, which had to give up business because of the illness of the promotor and largest stockholder.... The Eastern Steamship Co. is advertising winter reduced rates—Belfast to Boston, \$2.25.... Charles O. Cousins of Bangor, U. S. inspector of steamboat hulls, was in Belfast Thursday and inspected the hulls of the steamers Tremont and M. and M., recently named Stockton, which are on the Gloucester marine railway, receiving repairs. The main deck of the Tremont, with the houses and smoke stack, have been raised bodily some two feet, to give the steamer more free board. Some rotten wood was found aft, where new timbers have been put in, and the steamer will have new sponsons and have the deck forward enclosed like the Rockland's, giving her more freight room. The M. and M. is waiting her machinery which is being overhauled by the Duplex Roller Bushing Co. Her hull is in good condition and when the machinery is installed she will be ready for service.

**TO RENT**
